i got completely tired of my writing of you all over the damn place so here's a collection of them. idk if this is a gift or a burden off me. *With notes from today me!*

before hand
don't view this as sign or whatever
i just can't stand to keep all within me ya know?

i still have everything of 'ours'
except for that damn ring
even the clothing pin

happy late birthday too.

oh to be young

“you are completely alone”

it’ll probably be awhile before you see this
after all i’m the fool left with a curse
the liar and the idiot
that went behind gods back

i asked him for ages for me
he gave me it, yet i threw it away
cursed to never forget
cursed to claw at my skin
with thoughts of pain
begging and pleading
to simply get out of my head
yet my screams are unheard

burdened with pain and regret
of a fool that once was
i made myself a promise
as a plea to him
that i wouldn’t go back
to reignite pain
i blame myself for them
the others and their mistakes
maybe i’m the fool
maybe i’m not

i can’t imagine how i’m viewed
as a stain on your life
forgotten and laughed at
forgive me for it all
as i live with it everyday love

the haunting dreams
where you return
the life i once thought of
where you scream at me
where you hug me outta of joy
where we laugh
where you can’t bare the sight of me
where i speak to you like before
but i know the truth
i don't think ill talk to you like that
in a long time
all i can hear
is you in my dreams

-w *-d*

saying that line
over and over
itching into my brain
haunting me after all

“you are completely alone”

i feel like if i had to talk to you now itll be different.
different than before
i wouldn't be begging for you to come back
i would just watch your wedding from afar
and i think im quite okay with that.

i know my paintings are sitting at your parents, sitting in the closet stashed away. forgotten about.
yet i brought your things with me, every gift, polaroid, even that damn pin.
i lost your ring ages ago.
i don’t think i'll be able to forgive myself for that
i think about you at least once a day,
i miss you
you’re happy
i’m barely hanging on
all because of you
in some twist of fate.
i hope you call.
i hope you text.
i even crazily hope you’ll be in town and you'll call me up.
but i know no matter how much i wish or even pray.
it'll never happen
as long you are happy

i whispered it under my breath while we were together
while i was out your window
forgive for me not saying it sooner

god ill take this time to explain how pissed i am. i cant fucking stand the fact you ignore me. it makes me want to block you and never think of you again. really you ask me a question and you cant be fucking bothered to look at the answer. it fucking pisses me off.
the deleted messages was me asking if we gonna still do gifts, but when i sent it i realized. I WAS STILL ON DELIVERED FOR TWO WHOLE WEEKS. so what the hell was the point. i returned the gift.
you obviously dont want me in you life so why should i goddamn care. if you wanted the gift, too bad ‘ruh row’.
at the play you were annoyed that i didn’t let you know ahead, why would i, so i could left on delivered again? but that ruined you day? you entire day was ruined by me supporting you. i didnt do anything weird and uncomfortable. i just said it was beautiful play and you did good.

i could tell clear as day, you were put off by me just standing there, and wanted me to leave.

-w -d

god i knew i shouldnt have gone. i knew i should stayed at home. i knew the second i saw you outside and how you were responding, i shouldnt have went.

i go through such periods of i cant stand you, and want to block you and never speak to again. i get the upper hand for once, instead of you. i get the last laugh and be happy

but then i cant. i still get that feeling that maybe, MAYBE, ill see you again.

but now im done.

no reposting, no playlists, nor anything. im speaking to a wall and theres i can do to make it budge. you send me a message, im not responding.

i cant stand being a fool any longer,

if you ever wanna have a genuine conversation where i will get a response. let me know.

you wanna know why i find you the most confusing person in the world

everyone i've spoken to say how you can't stand me. all of these signs that state how you don't want me in your life. how you're so much happier. how your spiteful

but then

i see you in person
and you have a look in your eyes
like your fighting the urge to jump over
and grab me and never let go

im sorry

i wonder if you still think
about me in the silence
when everything has gone dull

i wonder if my stuff is shoved
into boxes or the trash
hoodies and gifts in the back
of a closet, left be forgotten

-w -d

i want to imagine
you think of me
like i think of you
but i know that's not true

i wonder if im a blur
or a stain in your life
i dont think you view me
as anything positive

i think that you spite me
you seemed so unwell to see
me after the play
to tell me otherwise

i would love to tell stories
ones full of hope and glamour
ones full of the idea that'll we'll speak again
but something makes me feel
like you dont want to
but ill tell you one

one short
one simple
and one honest

the shortest stories are ones that simply say

im sorry

im sorry for it hurting you
for how it ended
for how i acted
im sorry for all of it

ps

in the case of any emergency
please for the love of god
dont be afraid to call

remember when i told you
i wanted to paint
while lying here
looking at the stars

d

funny how this is still there, it's a right of passage for me. every time i got back home i check on the message to see if you wrote back

urgh, i hate you.

what do you mean

sometimes i wish i could say what i felt

then say it

no cause then everything im afraid

of losing that will be loss

which is?

you and her

..

i dont wanna lose either
but ill have to lose one

so your choosing her

yes but that-

you just love her and hate me

what the hell is your problem, no not at all

you're doing everything without considering me

the only thing im doing is considering you
this i what i mean, the true only negative

what

you, you can read what im saying at all
im not speaking spanish, its english
it pisses me off

you dont ever say what you mean
you say one thing and just become quiet

i dont know, my brain turns off

3/25/23

"ill have a dream with you in it, i cant wait to continue the conversation, i cant wait to hear what you have to say. but ill wake up and realize you're not there. ill crave you more than ever then. trying to go back to sleep so i can see you again. one more time. i cant call and continue the conversation, or explain this crazy dream to you.

i just want to go back to bed, to see you again.

you probably do have dreams with me in it, but you probably just brush me off. scoff at your brain for inserting me into yours. move on with your day and forget it.

my dream was at press, but the store next door was also press. and i was jumping from store to store helping. you were at the first one. a massive rush came while you were there but i had to run to the one next door.
i come back and your crying, you tell me that you'll take your break and tell me. we get called into meeting and then we go home. but i never heard why you cried. so i grab my phone hover over your name and i woke up.

its funny how the cigs are ours.
its funny how the first was shared.
its funny how i smoke to stop feeling this feeling towards you
its funny how every time i feel it i get biggest craving for a cig.
its funny how even something as simple as a candle thats reminds me of you, will trigger it.
its funny how i know you dont care, or atleast try not to.
its funny how i cant fucking tell.

but who am i to care.

i promised i would give you the painting so here.

you have the ability to be so much, the skill to push limits in any field. dont waste it on something youll hate.
dont waste your time tryna to get people that will treat you like garbage. that dont care for you. truly care. if someone really cares, it will be the easiest thing for them. you shouldnt have to force it out of them. find a person that makes you smile and feel alive.
makes you feel seen. make you feel as you should.

ill call you the july 11-13 everyday to make sure your still alive. dont think i forgot.
I didnt want to force myself back into your life

this is the only one that im confident that will seen by the person. i cant fucking stand you. i cant figure out what the hell is going on in your head. you tell me one thing, and show another so how the hell am i supposed to feel. i meant it when i said that its tiring to care about you. i try to look at our friendship fondly with all good memories. the next minute im reminded that its all one sided. all i read is that you dont care. thats how i know you were lying about what you said and when and how, because goddammit how can you say one thing then treat me like shit. i cant fucking stand that. why the hell would i want to spend my life with you. im sorry but you wouldn't treat someone that you #### with the energy you gave me. "oh im returning the energy". no you are not, plain and god damn simple. you give a rats ass about how i feel, i bring it up and u could simply care less, no matter how much i try.
but dont forget,
"this isnt about you"
